

# The world leader in cable manufacturing

Our presence in Hungary

# Prysmian

Hungary

## Where innovation meets tradition

We are a world leader in power cable and network technologies. We are proud to manufacture high quality, reliable products in our home country that contribute to Prysmian's global reputation.

We believe that only by applying responsible and sustainable business practices can we achieve our long-term goals. To this end, in addition to premium quality cables, we are continuously improving our production processes to minimise our ecological footprint - while actively participating in the energy transition.

# Continuous development

in line

# with our partners

We are convinced that our sustainability goals and digital developments together contribute to meeting our customers' needs at the highest possible quality, contributing to **a greener, cleaner future.**

Our cable and network solutions are not only efficient, but also a responsible choice for future generations.

## Fire resistant and LSOH cables

Our products meet the ever-increasing international requirements, as well as the national building and safety standards for fire resistance and the need for low smoke emissions.

### Key products

NHMXH Dca	H07RN-F HF
NHXMH PRO B2ca	N2XCWH
H07ZZ-F PRO B2ca	RZ1-K Dca
N2XH PRO B2ca	N2XH Dca
RZ1-K PRO B2ca	

## Power distribution and overhead cables

The industry's most widely used power cables and overhead lines are naturally a high priority in the portfolio of the world's largest cable manufacturer. In addition to standard models, we also offer customized, tailor-made solutions to meet our customers' needs.

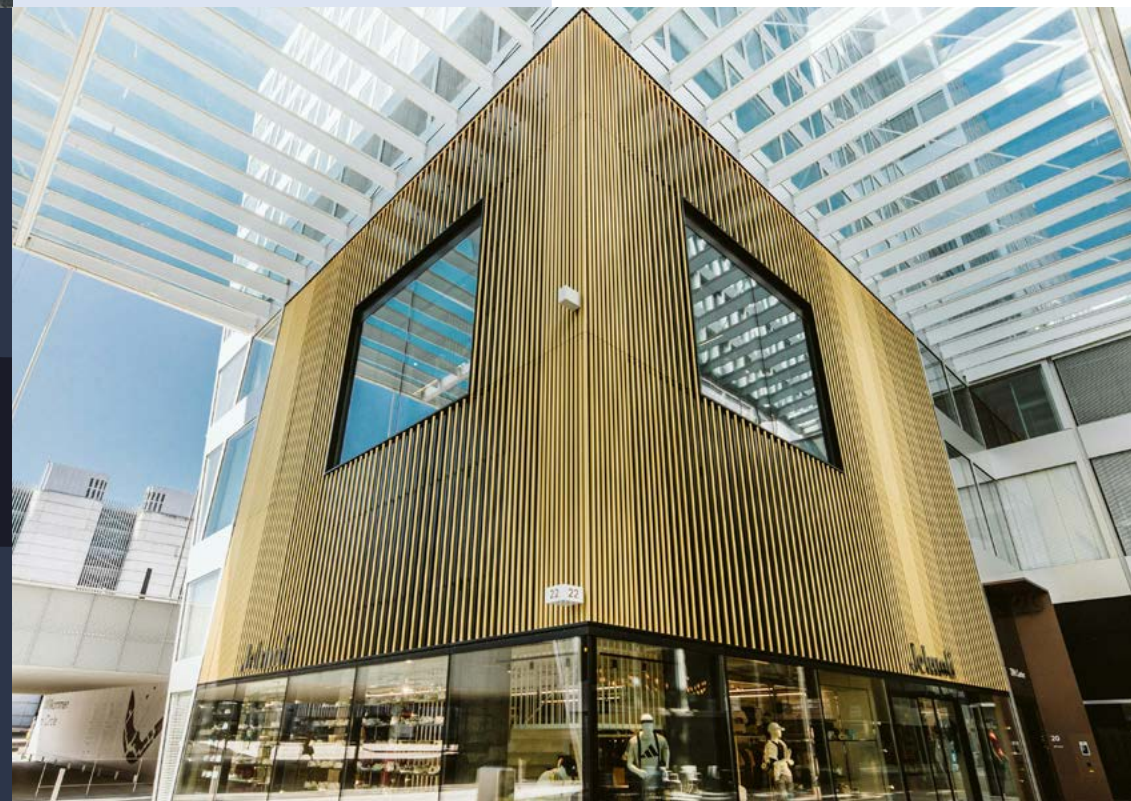

### Key products

#### Power distribution

NYY  
NYCWY  
N2XS(FL)2Y  
NA2XSY

#### Overhead lines

ACSR  
AAAC  
AXKA

## Cables for households

As the largest European manufacturer in the segment, we offer PVC insulated and sheathed cables to meet all our customers' needs. Thanks to the properties of our raw materials, we can offer cable elements in a very wide range of sizes and in an almost infinite variety of variations for building and industrial installations.

### Key products

H03VV-F	H05VV-F
H05V-U	H07V-U
H05V-K	H07V-K

## Rubber and PUR cables

For industrial applications, we offer our heavy-duty yet flexible rubber and PUR cables, where the most important factors are resistance to chemicals and maintaining flexibility in colder environments.

### Key products

H05RN-F	H05RR-F
H07RN-F	H07BQ-F
H07RN-F HF	

## Instrumentation and control cables

With our high-precision control cables, your electrical equipment will always stay on target. Our silicone and lead-free cables are flame retardant, and are VDE approved.

### Key products

YSLY      YSLCY  
YSLYQY    YSLYCY  
2YSLCYK

## Cables for the construction industry

We offer the most widely used products in the construction industry, suitable for both residential and industrial installations. As the world's largest cable manufacturer, we can meet our customers' needs in a wide variety of ways, including an infinite range of packaging.

### Key products

YM-J/O      NYM-J/O  
AT-05VV-U    CYKY  
NHXMH      RV-K

# Solar cables

Whether on land or at sea, we have all the cables you need to bring the sun's energy to your home.

## Kistelek

**FOUNDED:** 1976

**EMPLOYEES:** 260+

**YEARLY OUTPUT:** 38 000 t

**TOTAL AREA:** 198 618 m<sup>2</sup>

**2005:** establishment of Prysmian

**2014:** starts the production of rubber cables

**2015:** extension of PVC cable production

**2016:** extension of the metallurgy area

**2022:** new 3MW solar park

**2023:** “paperless factory” - digital monitoring starts

## Low voltage high quality

Our Kistelek plant has been producing cables for more than 40 years. As a result, we have gained a wealth of experience in meeting ever-changing needs. Over the years we have built an innovative culture that strives to produce reliable and durable products. Our Kistelek range includes a wide variety of low voltage products.

### Our offer

- PVC cables for external wiring of enclosures and for small and large electrical household appliances
- Industrial control cables for control units of production lines and as interconnecting cables
- Building wires for home electrical networks
- Rubber and PUR cables
- Fire resistant and LSOH cables for buildings, emergency exits and fire alarms
- Solar cables

## The big brother

Our plant in Balassagyarmat was already producing high quality PVC insulated cables in the 1970s, and since the mid-2000s we have been producing medium voltage cables, PVC and rubber granules to the world.

### Our offer

- PVC & XLPE insulated LV and MV cables
- PVC, PE or XLPE insulated overhead cables
- PVC & XLPE insulated building wires with PVC, PE or LSOH sheath
- Bares

## Balassagyarmat

**FOUNDED:** 1968

**EMPLOYEES:** 280+

**YEARLY OUTPUT:** Cables: 50 000 t

Filler granulate: 33 000 t

**TOTAL AREA:** 265 546 m<sup>2</sup>

**1970:** start up production of overhead conductors

**1974:** start up production of PVC insulated cables

**1987:** start up production of XLPE insulated cables

**1998:** Acquired by Pirelli

**2003:** Start up production of MV cables

**2005:** Establishment of Prysmian

**2006:** Start up production of PVC and rubber filling granulate and building wires

**2023:** "paperless factory" - digital monitoring starts
